Preschool Programs

Crazy Critter Coats--What would life be like to have skin covered with big, thick scales or even slime? Discover the crazy world of animal coverings, coats, and skins in this active and educational program.

Wiggly Wonders--Everything moves--from ants to zebras! Explore biomechanics through the use of puppetry and hands-on animals.

Kindergarten - Grade 3

Backyard Buddies--Florida's unique climate offers a diverse collection of habitats that support incredible and unusual animals. Meet and uncover the secrets to surviving in the swamp, the scrub, and the sand. Be amazed at what is lurking in our backyards.

Reptiles Rule--Our reptilian friends slither their way into the classroom to give students a close encounter of the scaled kind. Gain an appreciation for these cold-blooded creatures and their significance in the web of life during this hands-on educational experience.
